

# H0.75NG

## Concrete Batching Plant

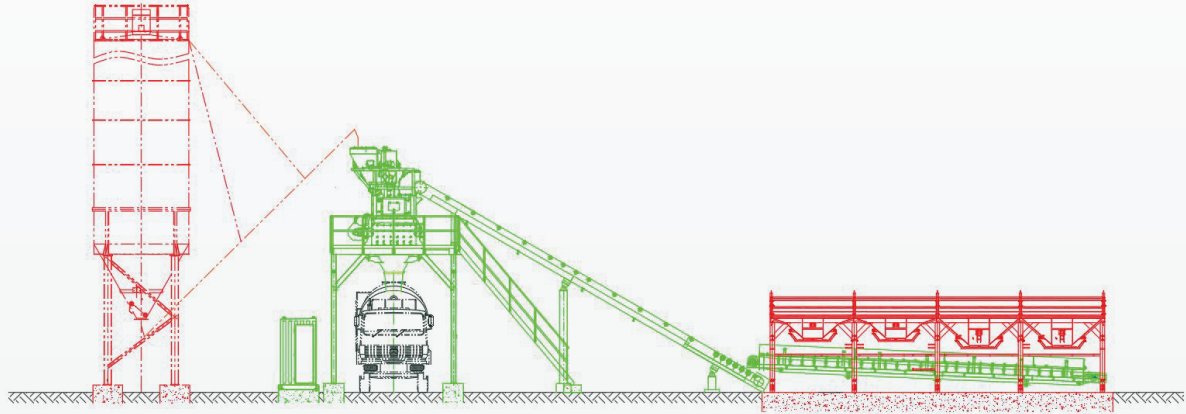

RECORD BREAKING ENGINEERING

# SCHWING STETTER MOVES CONCRETE WORLDWIDE

Being a trend setter with over 79 years of experience in Batching plants, this plant is specifically designed to cater to different requirements of construction industry. As a standard feature of all Schwing Stetter batching plants, this plant also comes with very low operating cost and a faster ROI.

This plant is more flexible to customer's changing requirement and is available with conveyor feeding option. Apart from the capability of handling mix recipes for higher grade and special grade concrete, this plant is also ideal for construction project like road, bridge, canals etc.

## TECHNICAL DATA

HORIZONTAL BATCHING PLANT INCLINED BELT CONVEYOR VERSION	UNIT	H0.75NG
Twin-shaft mixer (filling/compacted concrete)	m <sup>3</sup>	1.125 / 0.75
Capacity	(m <sup>3</sup> /h)	45
Concrete discharge height	(m)	4.0
Height of mixer platform	(m)	4.85
Aggregate weighing system (inline silo)	(kg)	1875
Cement weighing system	(kg)	550
Water weighing system	(kg)	225
Inline silo		4 bins
Filling width of each bin	(m)	2.8
Types of cement	upto	2/4
Water connection	DN	50
Max aggregate size	mm	40
Operating pressure of water	bar	3 to 4
Control System		MCI370
Operating voltage	V	415
Admissible voltage fluctuation	%	+/-10
Mains frequency	Hz	50
